Skill domains

- Frontend Engineering
- Testing and QA
- Leadership and CMS
- Cross-Platform Mobile
- Backend and APIs
- Databases and ORM
- AI and Computer Vision
- DevOps and Delivery

Core strengths

Responsive design | Component engineering | Admin panels | E-commerce | Landing pages | CRM systems | Payment gateways | REST APIs | CI/CD | Docker | Team leadership | Agile delivery

Education

B.Sc. Computer Studies
University of Yangon
2019 - 2026 (expected)

B.Sc. Computer Science
University of the People (Online, USA)
2023 - 2027 (expected)
Dean's List Fall 2023 | GPA 3.85 / 4.0 | Scholarship Recipient

Languages

Burmese (native)
English (professional working)

Professional summary

Frontend Developer and Development Lead with 4+ years of experience building responsive web applications and cross-platform mobile apps with React, Next.js, TypeScript, React Native (Expo) and Tailwind CSS. Leads sprint delivery in Jira and Confluence, containerizes applications with Docker, configures Nginx and Apache servers, and automates releases with GitHub Actions CI/CD. Integrated KBZPay payment gateways (MMQR and PWAAPP) into production e-commerce platforms. Background in QA, API testing, WordPress/Elementor and applied computer vision with PyTorch.

Experience

Frontend Developer / Development Lead

TAM79 Marketing Agency | Yangon, Myanmar | Present

- Led technical development of two production projects across the full lifecycle, managing timelines, workflows and sprint deliverables in Jira and Confluence.
- Built responsive web apps and cross-platform mobile apps with React, Next.js and React Native (Expo), styled with Tailwind CSS and React Query.
- Containerized applications with Docker and configured Nginx and Apache production servers for consistent environments.
- Implemented, tested and deployed KBZPay payment gateway integrations (MMQR and PWAAPP) for e-commerce platforms.
- Built GitHub Actions CI/CD pipelines and Jest and Vitest suites to reduce release downtime.

Freelance WordPress Developer

M.Wolf Marketing Agency | Arizona, USA (Remote) | Sep 2025 - Dec 2025

- Built and customized WordPress sites with Elementor: custom templates, global widgets and theme builder integrations.
- Configured SEO, caching, forms, analytics and security plugins; improved speed with image compression, lazy loading and minification.
- Resolved theme and plugin conflicts, added accessibility improvements and applied security hardening.

Mid-level Data Collector

Double Wave / HOME | Yangon, Myanmar | Nov 2023 - Aug 2025

- Collected, validated and cleaned data from multiple sources; maintained it in databases and spreadsheets.
- Worked with team members to gather requirements and deliver data-driven insights and user journeys.

Quality Assurance Analyst

ShopDoora | Yangon, Myanmar | Sep 2023 - Oct 2023

- Wrote and executed test plans and test cases covering functional, performance and security testing.
- Identified, documented and tracked defects with teams; contributed QA process improvements.

Junior Full-Stack Web Developer

Compass Global | Yangon, Myanmar | Sep 2022 - Jan 2023

- Developed production web apps with React, Next.js and TypeScript; built mobile-first Tailwind CSS interfaces for landing pages and admin dashboards.
- Built and documented RESTful APIs with Express.js; worked in Agile SDLC with Git and Postman.

Selected projects

Mya Khwar Nyo
AI Mobile App | Computer Vision

Plant identification from a photo using YOLO, Swin Transformer and ConvNeXt (PyTorch), with Appwrite backend and Cloudinary storage.

React Native · NativeWind · PyTorch · Appwrite · Cloudinary

github.com/Kazuo-Mikara/MyaKhwarNyo

Pharmacy Management
Full-Stack | Inventory and Retail

Decoupled Next.js and GraphQL system with containerized PostgreSQL, Better Auth and real-time cart state.

Next.js · GraphQL · Zustand · Prisma · PostgreSQL · Docker

github.com/Kazuo-Mikara/Pharmacy-Nextjs

Luxe Estate
Real Estate Platform

Dockerized real-estate platform with interactive Leaflet maps for browsing properties geographically.

TanStack Start · PostgreSQL · Prisma · Better Auth · Leaflet · Docker

github.com/Kazuo-Mikara/luxe_estate

Zenix LMS
Learning Management System

LMS connecting instructors and students, with secure authentication and course progress tracking.

Next.js · MongoDB · Auth.js · Tailwind CSS

github.com/Kazuo-Mikara/zenix

Crestview Pro
Geospatial Property Management

Property management tool with secure data handling and a custom-styled interactive map.

Next.js · MongoDB · Auth.js · Leaflet

github.com/Kazuo-Mikara/crestview_pro

Kazuo Travels
Interactive Travel Explorer

Travel exploration app with real-time geographic data visualization on Leaflet and OpenStreetMap.

React · Leaflet · OpenStreetMap · Tailwind CSS

github.com/Kazuo-Mikara/kazuo-travels

Pharmacy E-commerce
E-commerce | PHP

E-commerce site with product browsing, secure checkout and a PHP and MySQL backend.

PHP · MySQL · Bootstrap · JavaScript

github.com/Kazuo-Mikara/phamarcy_Ecommerce

Technical skills

Frontend	React · Next.js · TypeScript · JavaScript · HTML5 · CSS3 · Tailwind CSS · Bootstrap · TanStack · Zustand · Framer Motion · GSAP · Anime.js · Shadcn UI · Material UI
Mobile	React Native · Expo · NativeWind · Kotlin
Backend and APIs	Node.js · Express.js · NestJS · Rust · PHP · REST · GraphQL · JWT · Auth.js · Better Auth
Databases	PostgreSQL · MongoDB · MySQL · Prisma ORM · Supabase · Appwrite · Cloudinary
DevOps and Cloud	Docker · Nginx · Apache · GitHub Actions · Git · AWS · Vercel · Netlify
Testing and QA	Jest · Vitest · Playwright · Postman · Insomnia · Test planning · API testing
AI and Computer Vision	Python · PyTorch · YOLO · Swin Transformer · ConvNeXt
CMS and Tools	WordPress · Elementor · Figma · Jira · Confluence · Agile / SDLC · Leaflet · Power BI · Tableau · Excel
